ABOUT ME

I am an architect who's motivated for self-development and learning new things is what got me into the programming world to learn and know more. Now I am pursuing my career as a full-stack developer, with the goal of connecting both of my jobs together.

EDUCATION

Jan -May 2022 FULL-STACK DEVELOPER CERTIFICATE

Axsos Academy, Palestine , Ramallah

Intensive Bootcamp. +1200 Hours of Immersive Full-Stack Training Program in Python, Java, and MERN (Mongo DB, Express , React ,NodeJS).

2014 - 2019 BACHELOR DEGREE OF ARCHITECTURE

An Najah University, Palestine, Nablus

2019 HIGHSCHOOL DEPLOMA - 98.3

Talae Al Amal School , Palestine, Nablus

WORK EXPERIENCE

2021-2022 FREELANCER ARCHITECT

Nablus

2019-2021 MAIN ARCHITECT

Bayt Al-Handassah office, Nablus

PROJECTS

MY PORTFOLIO

Personal Project – React

Build with pure JS and CSS and deployed using Github.

JOPAL

Groupe Project – Python

Online Jop application, using Python, HTML, and Bootstrap. Web application with the main purpose of exchanging information between Job seekers and recruiters about the local market job needs and available opportunities.

MASAR

Groupe Project – Java

Online Hiking application, using JAVA, Spring Boot, HTML, and Bootstrap. We used an external API "Google maps".

Masar is built to enrich our lives and enlarge our understanding of Palestinian history, while creating for us a sense of continuity through outdoor trips.

FILISTIN

Groupe Project – Mern (Mongo DB ,Express, React ,NodeJS).

Online Magazine, using React, NodeJS, JavaScript, HTML, Bootstrap , Material UI and Mongo DB.

This web application is an online magazine that will help to document Palestinian Cities and Villages and allow the world to get to know more about Palestine.
